² The index is an excess return index. The returns of the index will reflect the performance of the underlying components in excess of a reference rate that could be earned on cash or a similar risk-free benchmark asset. Additionally, the performance of the index includes an embedded fee and may also include other costs such as transaction and replication costs. These costs may vary over time with market conditions. The excess return nature of index and the embedded fees and costs will all reduce index performance and the potential interest credited within the annuity contract. Because the index applies a volatility control mechanism, the range of both the positive and negative performance of the index is limited.

³ The Index features a performance control mechanism that limits its maximum growth potential within any given month. Consumers may therefore forego part of the growth of the Index if it rises beyond this limit within a month.

⁴ The full name of the S&P 500 FC Index is S&P 500 FC TCA 0.50% Decrement Index (USD) ER.

Strategy Charge (Not available on the Fixed Strategy)	Strategy charge options offer higher Cap and Participation Rates. The charge is calculated by multiplying the Strategy Value of the associated Strategy and an Annual Strategy Charge Rate on each contract anniversary. A portion of that charge (1/12th) is deducted from the applicable Strategy Value each month. The Initial Annual Strategy Charge Rate is set at contract issue and guaranteed for the first Index Term Period. A new Annual Strategy Charge Rate will be declared at the start of each Index Term Period.
Strategy Charge Credit	A one-time Strategy Charge Credit will be added to the Accumulated Value at the end of the Withdrawal Charge Period, if the sum of all strategy charges applied, minus the sum of all interest credits, is greater than zero. If withdrawals subject to a Withdrawal Charge are taken (including a full surrender), the Credit will not be applied.
Strategy Preset™ (Not available in NH)	Strategy Preset is a simple way to diversify across indices, which can help increase growth potential and mitigate risk. You can choose between one of three growth profiles and the renewing portion of your Accumulated Value will be automatically rebalanced each year.
Terminal Illness Waiver⁵ (Not available in CA)	You can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is diagnosed with a Terminal Illness that is expected to result in death within one year and the Annuitant meets the eligibility requirements. This waiver is available after your first Contract Anniversary. The Annuitant may not be diagnosed during the first Contract Year.
Confinement Waiver⁵ (Not available in CA & MA)	After the first Contract Year, you can withdraw up to 100% of your annuity's Accumulated Value if the Annuitant is confined to a Qualified Care facility for at least 60 consecutive days and meets the eligibility requirements. The Annuitant cannot be confined at the time the contract is issued, and confinement must begin at least one year after the Contract Date.
Death Benefit	Greatest of (i) Accumulated Value with no surrender charges, (ii) the Minimum Guaranteed Contract Value or (iii) the Return of Premium Benefit (if applicable).
Enhanced Free Withdrawals (Plus only)	The free withdrawal amount is increased to 10% per year and may be taken as early as the first contract year. If no withdrawals are taken in a given year, up to 20% of the Accumulated Value is available for withdrawal in the next year.
Return of Premium (Plus only)	After the fourth contract year, the Cash Surrender Value will never be less than the premium minus premium taxes (if applicable) and prior withdrawals, including Withdrawal Charges, Premium Bonus Vesting Adjustment and Market Value Adjustment (if applicable) on those withdrawals.
Enhanced Annuitization⁶ (Not Available in CA or FL) (Plus only)	After the seventh contract year, you may elect to surrender your contract and apply the Accumulated Value to one of five settlement options. No Withdrawal Charges, Premium Bonus Vesting Adjustments or Market Value Adjustments will apply upon election of this feature, provided one of the Settlement Options is elected and annuity payments commence. Please refer to the Certificate of Disclosure for specific settlement options.
Annual Liquidity Rider Charge Rate (Plus only)	0.95% charge deducted from the Accumulated Value during the Rider Charge Period (same duration as the Withdrawal Charge period). The Charge is assessed upon the following: (i) end of each contract year; (ii) when a withdrawal is taken; (iii) on the Annuity Date; (iv) upon surrender; (v) upon the date of proof of death. The rider may not be terminated during the Withdrawal Charge period.

⁵This benefit is NOT long-term care insurance nor is it a substitute for such coverage. Limitations, variations and exclusions apply. Please see the Certificate of Disclosure for more information.

⁶In MD, Performance Elite 10 allows Enhanced Annuitization after the sixth Contract Year.

AI Powered US Equity Index • The AI Powered US Equity Index (the "AiPEX Index") is the exclusive property of EquBot and is administered, calculated, and published by Solactive AG ("Solactive"). We also refer to each of the AiGO Index and the AiPEX Index herein as an "Index" and, together, the "Indices."

EquBot, AiGO, AiPEX, "AI Powered Global Opportunities Index", and "AI Powered US Equity Index" (collectively, the "Marks") are trademarks or service marks of EquBot and have been licensed by HSBC and sub-licensed by Athene Annuity and Life Company (the "Company") for use in a fixed indexed annuity offered by the Company. The fixed indexed annuity is not, in whole or in part, sponsored, structured, priced, endorsed, offered, sold, issued or promoted by EquBot, HSBC, MerQube, Solactive or any of their affiliates. EquBot and HSBC's only relationship to the Company is the licensing of the Indices and Marks for certain purposes. MerQube and Solactive's only relationship to the Company is with respect to administering, calculating and publishing the AiGO and AiPEX Index, respectively. EquBot, HSBC, MerQube and Solactive shall not have any liability with respect to a fixed indexed annuity in which an interest crediting option is based on an Index and are not liable for any loss relating to the fixed indexed annuity, whether arising directly or indirectly from the use of an Index, its methodology, any Mark or otherwise. None of EquBot, HSBC, MerQube or Solactive have any obligation to take into consideration any of the needs of the Company or any of the owners, annuitants or beneficiaries of the fixed indexed annuity in designing, calculating, administering or licensing the Indices.

NONE OF EQUBOT, HSBC, MERQUBE, SOLACTIVE OR THEIR SUPPLIERS GUARANTEES THE ACCURACY, ADEQUACY, TIMELINESS, COMPLETENESS OR AVAILABILITY OF THE AIGO INDEX OR ANY COMPONENT THEREOF OR DATA INCLUDED THEREIN, OR THAT NO ERROR, OMISSION, DELAY OR INTERRUPTION WILL EXIST THEREIN. NONE OF EQUBOT, HSBC, MERQUBE, SOLACTIVE OR THEIR SUPPLIERS MAKES ANY REPRESENTATION OR WARRANTY, AND EACH OF HSBC, EQUBOT, MERQUBE, SOLACTIVE AND THEIR SUPPLIERS EXPRESSLY DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THOSE REGARDING (I) MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, AND (II) THE ADVISABILITY OF ANY PERSON INVESTING IN THE FIXED INDEXED ANNUITY.

No purchaser, seller or holder of the fixed indexed annuity, or any other person or entity, should use or refer to any Mark or other EquBot trade name to sponsor, endorse, market or promote the fixed indexed annuity without a license from EquBot and HSBC. Under no circumstances may any person or entity claim any affiliation or association with EquBot, HSBC, MerQube or Solactive without the prior written permission of EquBot, HSBC, MerQube or Solactive.

In calculating the performance of each of the Indices, EquBot deducts a servicing cost of 0.85% per annum for the AiGO Index, and a servicing cost of 0.50% per annum for the AiPEX Index, calculated on a daily basis. Such costs may vary over time with market conditions. These costs reduce the potential positive change in the Indices and thus the amount of interest that will be credited to the fixed indexed annuity option based on each of the Indices.

The volatility control applied by EquBot may reduce the potential positive or negative change in each of the Indices and thus the amount of interest that will be credited to the fixed indexed annuity option that is based on either of the Indices.

Nothing provided herein should be construed as HSBC, EquBot, MerQube, Solactive or any of their suppliers providing tax, legal, or investment advice nor are HSBC, EquBot, MerQube, Solactive or any of their suppliers recommending engaging in any investment strategy or transaction.

BNP Paribas Multi Asset Diversified 5 Index • The BNP Paribas Multi Asset Diversified 5 Index (the "BNPP MAD 5 Index") is the exclusive property of BNP Paribas or one of its affiliates (BNP Paribas and its affiliates are hereinafter called "BNPP") and is determined, composed and calculated by BNPP. "BNP", "BNPP", "BNP Paribas", "BNPP MAD 5 Index" and "BNP Paribas Multi Asset Diversified 5 Index" (collectively, the "BNPP Marks") are trademarks or service marks of BNPP and have been licensed by Athene Annuity and Life Company (the "Company") for use in a fixed indexed annuity offered by the Company. The fixed indexed annuity is not, in whole or in part, sponsored, structured, priced, endorsed, offered, sold, issued or promoted by BNPP or any of its affiliates, or any third party licensor of information to BNPP. BNPP's only relationship to the Company is the licensing of the BNPP MAD 5 Index and BNPP Marks for certain purposes. BNPP shall not have any liability with respect to a fixed indexed annuity in which an interest crediting option is based on the BNPP MAD 5 Index, and is not liable for any loss relating to the fixed indexed annuity, whether arising directly or indirectly from the use of the BNPP MAD 5 Index, its methodology, any BNPP Mark or otherwise.

In calculating the level of the BNPP MAD 5 Index, BNPP deducts a servicing cost of 0.50% per annum, calculated on a daily basis. In addition, the BNPP MAD 5 Index methodology embeds certain costs which cover among other things, rebalancing and replication costs. Such costs may vary over time with market conditions. These costs reduce the potential positive change in the BNPP MAD 5 Index and thus the amount of interest that will be credited to the fixed indexed annuity that includes the BNPP MAD 5 Index.
